

ServSafe® is a food safety program providing high-quality food safety education and training materials for the restaurant and foodservice industry. Advancing food safety training for more than 25 years, the ServSafe® program is recognized and accepted by more federal, state and local jurisdictions than any other food safety program. User-friendly and flexible, ServSafe® training materials provide a complementary mix of components to satisfy each level of an operator's food safety needs. Successful completion of this training earns the nationally recognized "Food Protection Management Certification." This comprehensive program offers an assessment, an optional preparatory course in food safety and the FoodGuard online exam.

Step 1: In order to assess your knowledge and prepare you for the exam (FoodGuard® Texas Certification Examination) you must take the assessment (ServSafe® Manager Online Assessment).

Step 2: You will be offered the opportunity to take an online preparatory course (ServSafe Manager Certification Training Online Course) to prepare you for the examination. Taking the preparatory course is not mandatory—you may take the exam without taking the online course.

Step 3: Take the FoodGuard Texas Certification Examination.
