

SPAM INFORMATION

What is SPAM?

No it's not the meat product!

Spam is unwanted, unsolicited electronic junk.

You can read more about SPAM at the following web page: <http://www.ftc.gov/spam/>

Why do I get so much more SPAM than my co-workers?

The 3 most common ways to guarantee you will get lots of SPAM are:

- Subscribe to receive newsletters, listservs, coupons, inspirational messages, jokes, recipes, etc.
- Fill out online application forms (outside of Jacksonville Independent School District) that include your email address.
- Unsubscribe to a listserv that you didn't subscribe to.

If you participate in any one of the above 3 items, you greatly escalate your chances of receiving SPAM.

Report SPAM you are receiving at your jacksonvilleisd.org address:

Directions to report SPAM are on the district website on the technology page.

Click the link to troubleshooting guides.

Review the "To Report SPAM" document.
